

Mohammed Ahemed

Store Manager

Mohammed Ahemed is a 42 year old store manager. He has been working at this location for over 3 years, and it is his first job in the country. Mohammed has lived the majority of his life in his home country, Jordan. He moved to Canada with his wife Buthayna in the hopes of starting a family here in Toronto. In his home country, he worked as a dentist, but has been denied the ability to practice here in Canada without re-taking his dentistry degree.

Mohammed's spoken english is very strong, and he speaks with an almost undetectable accent. He is a great people person, and is very friendly. Unfortunately, he has poor reading abilities as his formal education has always been in Arabic. He would greatly benefit from clear and simple written procedures. He sometimes gets flustered by his inability to deal with written english.

On any given workday, Mohammed can be found helping customers and co-workers around the store. He has a great deal of experience in handling tough situations, and setting routines in place to help the workflow of the store. If a customer is unhappy, he will stop at nothing to help solve the issue.
